PRATIK SRIVASTAVA

SOFTWARE DEVELOPER | COMPUTER SCIENCE & ENGINEERING

+91 9455822731 | pratikstack.dev@gmail.com

LinkedIn | GitHub | PortFolio

PROFILE

Computer Science and Engineering graduate with an interest in software development, full-stack web technologies, and problem-solving. Familiar with C, C++, Python, Java, HTML, CSS, and JavaScript, with an interest in modern frontend and backend technologies, databases, and API development. Hands-on project experience includes a Mac-integrated virtual assistant concept, a bone-conduction device, and a portable ECG device using embedded hardware platforms such as ESP32 and Arduino. Eager to apply technical knowledge, learn new technologies, and contribute to practical software solutions in a collaborative development environment.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

RIT – Uttarakhand Technical University, Roorkee, Uttarakhand — August 2022 – June 2026

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java (basic), JavaScript (foundational)

Frontend Development: HTML5, CSS3, JavaScript, responsive design

Backend Development: Node.js (learning), REST APIs, basic authentication concepts

Tools & Platforms: Git, GitHub, VS Code, AntiGravity, Arduino IDE

Embedded & Hardware: Arduino UNO, Arduino Nano, ESP32, Raspberry Pi

Core Concepts: Object Oriented Programming Concepts, debugging

Professional Skills: Communication, presentation, problem-solving, teamwork, active listening

PROJECTS

Personal Portfolio Website | Link — React, TypeScript, Tailwind CSS

- Developed a modern, responsive portfolio to showcase technical skills, projects, certifications, achievements, and professional background.
- Designed a futuristic dark-themed interface with clean typography, subtle animations, and developer-focused visuals.
- Structured content into dedicated sections for projects, education, skills, and contact information to improve navigation.
- Focused on responsive layouts, accessibility, and a professional presentation for recruiters and potential collaborators.

IRIS (Intelligent Responsive Interactive System) | Link — Python, HTML, Gesture Control, Shell Scripting.

- Designed a Mac-integrated virtual assistant concept aimed at making computer interaction more convenient and interactive.
- Focused on simplifying user interaction and supporting assistant-style computer operations.
- Project scope includes defining interaction methods, supported tasks, and possible system integrations.
- Emphasized an intuitive user experience and opportunities for future functionality expansion.

Bone Conduction Device — Bluetooth Transceiver, Vibration Components

- Explored a device concept that transmits sound vibrations through bone conduction as an alternative sound-transmission approach.
- Considered a Bluetooth transceiver for wireless audio input and vibration components for mechanical output.
- Focused on the potential application of bone-conduction technology for people with hearing impairments.
- Explored hardware integration and the basic working principle of vibration-based sound transmission.

Portable ECG Device — ECG Sensor/Chip, ESP32

- Explored a portable ECG monitoring concept intended to make cardiac signal monitoring more accessible outside traditional clinical settings.
- Proposed ECG sensing hardware to capture cardiac electrical signals for further processing.
- Used an ESP32-based approach for data handling and potential wired or wireless communication.
- Focused on portability, readable signal output, and the potential for future improvements in monitoring and data presentation.

CERTIFICATIONS

Java Business Application Training — EduPyramids, SINE, IIT Bombay-associated training | 27 May 2025 | Score: 95% | Certificate
Python 3.4.3 Training — Spoken Tutorial Project, IIT Bombay | 04 Dec 2023 | Score: 75% | Certificate
C Training — Spoken Tutorial Project, IIT Bombay | 31 May 2023 | Score: 80% | Certificate

ACHIEVEMENTS & ACTIVITIES

- Winner, Technomax College Technical Event.
- Member, College Technical Club.
- Member, College Incubation Centre.
